# ABOUT US

**A**t Rasmussen Equipment Company we supply heavy-duty marine construction companies, barge and tugboat operators, general contractors, the timber and logging industry, fishing companies, and many others.

Our extensive fleet of winches, power units, sectional barges, deck gear, anchors, buoys, and many other items are available for For Sale and/or For Rent with locations in Seattle, WA, Belle Chasse, LA, and Anderson, CA. We carry wire rope, rigging hardware, chain, and marine supplies too. We have a fully operational wire rope fabrication shop in Seattle, WA and we are a licensed Slingmax manufacturer of the Twin Path sling.

Our rental fleet consists of many types of winches; diesel mechanical, hydraulic, air, electric, and hand. We inventory single, double, triple, and quad drum diesel mechanical winches. Our hydraulic fleet consists of winches with bare drum pulls ranging from 1,100-175,000 lbs. We also stock power units including Tier II & Tier III units.

The family owned and operated Rasmussen Equipment Company was founded in the early 1930's by Charles Rasmussen Sr. After working as a salesman for Seattle Hardware, via horse and buggy, he started building and operating salmon fish traps which used miles of wire rope. This evolved into the wire rope and rigging company, "Charles H. Rasmussen Company". His son, Charles Jr., "Charlie" expanded the wire rope and rigging business into the logging and timber industry. When his son Rich Rasmussen took over the company in the early 1970's, the business was expanded to include marine equipment. Under his leadership, the company opened a facility in New Orleans, LA which has been in operation since 1981.

From humble beginnings with a horse and buggy, to their current status as a major provider to the marine construction industry; Rasmussen Equipment Company has kept the same business ethics that allowed for its steady and successful growth: integrity, professionalism, and the belief that the customer truly comes first.

# WINCHES/HOISTS

For Rent and For Sale

Rasmussen's supplies new, used, and reconditioned winches. We supply diesel mechanical, hydraulic, pneumatic, electric, & manual winches.

Knowledgeable sales and support team.

**Diesel mechanical winches** available with **Single, Double, Triple, & Quad Drum configurations:** Amcon, American, Clyde, Manitowoc, & Skagit

**Hydraulic winches and Power units:** Allied, Lantec, & Pullmaster

**Air winches:** Ingersoll Rand & Thern

**Electric:** Patterson, Thern, & Wintech

**Hand Winches:** Patterson, Thern, & Wintech

**We also have an extensive Parts department.**

**RASMUSSEN**  
EQUIPMENT COMPANY

Since 1936

# SECTIONAL BARGES

Rasmussen Equipment Company provides new and used, Sectional barges for heavy-duty inland marine construction jobs.

- Truckable
- Flexible Configurations
- Rakes and ramps available
- Spuds and spudwells available

**Flexifloats, Poseidons, and Rendrags available For Rent & For Sale with storage facilities in Seattle, WA; Anderson, CA; and Belle Chasse, LA**

Portable, Sectional steel barges in many sizes and depths: 4', 5', & 7' depths

Raked and ramped sections

Spuds and spudwells

Spud lifting winch systems

Barge Pusher Units – 97 or 200 hp

Crane Ramps

Cleats
